About the Company

Diamond Doors is a family run business manufacturing quality, custom bi-fold doors engineered for convenience, innovation, and longevity. We serve the agricultural, aviation, and commercial industries.

Founded in 1998, our company is well established and continues to grow. We recognize the value in long term employees and hope to provide an environment where our staff can grow with us, treating them with dignity, respect, and value.

Description

Diamond Doors, Canada's largest manufacturer of commercial and industrial bifold door systems, has an immediate opening for a full-time Mechanical Engineer Technician (MET).

Who We Need

Responsibilities

- Create detailed manufacturing drawings.
- Aid in product development.
- Coordinate with sales to interpret design requirements and develop solutions.
- Perform stress analysis of steel structures.

Required Skills

- Post secondary education.
- Experience with CAD (proficiency with SolidWorks an asset).
- Proficiency with Windows and Microsoft Office.
- Self-motivated and capable of working independently.
- Solid communication and problem solving skills.
- Ability to manage multiple tasks with differing timelines.
- Attention to detail.

Preferred

- Completion of a recognized Mechanical Engineering program.
- Professional drafting, design, and/or construction experience.
- Knowledge of various steel manufacturing processes.
- Experience in structural design and analysis.
- Experience in SolidWorks.

Benefits

Diamond Doors offers a challenging and rewarding work environment with a competitive wage and benefits package.

How to Apply

Applicants with high standards and a strong work ethic are encouraged to send their resume and covering letter to HR@DiamondDoors.com or in person to the contact address.

Only those selected for an interview will be contacted.
